

CVD secures reseller rights to ULTIMedia kiosk products

• 24 Jul 2007

SANTA ANA, Calif. — CVD has signed a deal with ULTIMedia to distribute ULTIMedia's pre-configured interactive kiosks.

CVD and ULTIMedia are part of the "Point of Information" industry which combines the technologies of digital signage and self-service with point-of-sale positioning to offer retailers efficient ways to process repetitive transactions.

Earlier this year, ULTIMedia announced its entry into the U.S. market by creating ULTIMedia USA and opening its corporate office in New York City.

According to a news release, ULTIMedia USA and CVD will share an operations center.
